LANDWIND
MEDICAL

See life more clearly

Company Profile

LANDWIND MEDICAL is a health care company headquartered in Shenzhen, China, established in 1994. Till now, we cater our global medical care to over 30,000 medical institutions in more than 90 countries.

We integrate our dedicated and professional team of Research & Development, Manufacturing, Sales & Marketing, and Servicing to realize the superior quality of production and placement of Medical Imaging Systems, In-Vitro Diagnostic Products, Life Support Products, Blood Purification Products and Medical IT Products. To achieve the sustainable development on technology, Landwind re-invests more than 15% of the annual sales revenue into Research & Development each year, with five advanced research centers and three modern manufacturing facilities in Shenzhen, Beijing, Guangzhou, Zhuhai and Taizhou, covering more than 100,000 m².

Encompassing enormous experience and knowledge in the medical field empowers us to deliver reliable products and services through our well established distributor network. We always believe innovation, quality and responsibility are the keys to benefit the health care professionals. By partnering with our allies around the globe, we will always be helping our users and patients to see life more clearly.

Digital Radiography System

Luna-Pre

Full Digital Mammography System

- Dual LCD screen on column
- Advanced flat panel technology a- Se or CMOS
- Small tube head design
- Isocentric rotation
- Convenient Single- Touch Positioning
- Convenient Single- Touch switch on/off
- Large rotation range of tube head
- Strong and user-friendly workstation
- Cute design of compression device maximizing the conformability of patient
- Available for future upgrading with biopsy and 3D Breast Tomosynthesis
- Remote technical support

Keen Ray™ DR200Mate

Mobile Digital Radiography System

- 30KW rated power suitable for wide clinical applications
- Light weight less than 300KG
- Articulated arm suitable for different X-ray positions
- User-friendly workstation with 15 inch LCD touch screen
- Advanced APR function
- Advanced Flat Panel technology- Amorphous Silicon
- Fast bedside imaging
- Automatic image processing
- Multiple peripheries including USB, DICOM and burning CD
- Cutting-edge image quality
- Intelligent anti-collision design

Keen Ray™ DR2600F

Universal Arm Digital Radiography System

- 50KW rated power for wide clinical applications
- Ergonomic design of U-arm with wide range of movement
- 8 inch color LCD touch screen
- One touch position function
- Superior Anti-collision design
- Low dose imaging technology
- Advanced APR function
- Pre and Post processing of imaging function
- Advanced Flat Panel technology- Amorphous Silicon
- Tissue Equalization technology
- User-friendly workstation
- Powerful Dicom compatibility

Keen Ray™ DR2200UF

Universal Arm Digital Radiography System

- 32KW rated power for wide clinical applications
- Ergonomic design of rotating tube-head and arm
- Low dose imaging technology
- Advanced APR function
- Pre and Post processing of imaging function
- Advanced Flat Panel technology- Amorphous Silicon
- User-friendly workstation
- Powerful Dicom Compatibility

Keen Ray™ DR50M

Mobile Digital Radiography System

- 5.1KW rated power
- Light weight design
- Foldable arm suitable for X-ray in vehicle, patient house, outside area etc.
- User-friendly workstation with 15 inch LCD Touch Screen
- Advanced APR function
- Advanced Flat Panel technology- Amorphous Silicon
- Fast bedside imaging
- Automatic image processing
- Multiple peripheries including USB, DICOM and burning CD
- Cutting-edge image quality

Sharp Ray™ LWX-50P

Floor Mounted Conventional Radiography System

- 50KW rated power for wide clinical applications
- Wide movement of tube can be easy for special position
- Low dose imaging technology
- Advanced APR function
- User-friendly workflow
- Available for digital upgrade

Sharp Ray™ LWX-20P

Floor Mounted Conventional Radiography System

- 20KW rated power for wide clinical applications
- Wide movement of tube can be easy for special position
- Low dose imaging technology
- Advanced APR function
- User-friendly workflow
- Available for digital upgrade

RF-5000

Full Digital Fluoroscopy and Radiography system

- Combination of Fluoroscopy and Radiography technology
- Wide clinic applications
- Advanced image intensifier and CCD camera
- Advanced fluoroscopic bed with full automatic movement
- Advanced Flat Panel technology- Amorphous Silicon
- Fast movement for Flat Panel to work position
- Intelligent indication for exposure
- Clever post processing of fluoroscopic image

Keen Ray™ Apollo

Ceiling Suspension Digital Radiography System

- 50KW rated power for wide clinical applications
- 12.1 inch color LCD touch screen
- Cute design of Roof Tank Chains
- One touch position function
- Automatic tracing system
- Electronically remote or manual control for movement of column
- Low dose imaging technology
- Advanced APR function
- Pre and Post processing of imaging function
- Advanced Flat Panel technology- Amorphous Silicon
- Superior Image Mosaic technology
- Tissue Equalization technology
- User-friendly workstation
- Powerful Dicom compatibility
- Panoramic imaging function
- Ultrasonic anti-collision function
